

## 'Sausage' Pillowcase

3/4 yard main pillowcase fabric  
1/4 yard cuff fabric  
2" x WOF trim fabric

Place cuff fabric on table with the right side facing up.

Take the trim fabric and fold it in half Right Sides facing OUT and press the fold. Lay this on top of the cuff fabric with the raw edges of both fabrics aligned along the top.

Place the body fabric Right Side Down on top of both of these, aligning all top raw edges and pinning to hold the three layers together.

Now roll up the Main Pillowcase fabric towards the pinned edge until you can see most of the cuff fabric. Bring the bottom edge of the cuff fabric up to the pinned edge, enclosing the main body fabric, and pin it in place as well. Stitch along this edge with a 1/4" seam. Reach in one end of the 'sausage' and pull the fabric out. Press.

Fold the pillowcase in half lengthwise Right Sides OUT and square up the raw edges. Sew the side and bottom with a 1/4" seam (trust me on this - it looks wrong, but just keep going.....). Backstitch at the beginning and end.

Turn Wrong Side OUT and press the seams. Sew the side and bottom again, this time with a 1/2" seam, backstitching at the beginning and end. This creates a nicely finished seam on the inside - turn the pillowcase Right Side Out, press one more time, and you're done!!

Roll body fabric up, then bring bottom edge of cuff fabric up around the 'sausage'. Pin in place with other layers, then stitch with 1/4" seam.
